

HALBERT HARGROVE

How to read your Fidelity statement for realized gains/losses and portfolio income:

We've included a sample statement to highlight the sections where you can view realized year-to-date gains/losses and portfolio income.

This sample includes three different accounts. The Personal Retirement Account (page 19), is a traditional IRA and is a tax-deferred account. Thus its investment gains and losses won't impact the account holder's income tax picture for the year. The John W. Doe of this sample statement, however, is required to take a Required Minimum Distribution which is mentioned on page 20.

We've highlighted the sections below to indicate where you can find the information you need to get a clear picture of the potential tax impacts from your account(s) year to date. On the sample statement, account information for each separate account appears on pages 6, 20, and 27. It is aggregated on page 3:

- The 'Income Summary' section provides a summary of income earned in the current statement period and year to date.
- Under the 'Realized Gains/Loss From Sales' section, you will find a summary of realized gains or loss information during the current statement period and year to date. These figures exclude transactions where cost-basis information is incomplete.
- For Multiple Account Statements, the sections listed above still report the same information, but are aggregated across all accounts in the portfolio on page 3.

This document and sample statement are provided for general information and educational purposes only. HH is neither a law firm nor accounting firm, nor does it serve as an attorney or accountant. No portion of its services, or this content, should be construed as legal or accounting advice. Any securities shown in the sample statement are illustrative only and should not be construed as a recommendation to buy or sell any securities, nor should it be construed as a recommendation or endorsement of those securities. Different types of investments involve varying degrees of risk, and it should not be assumed that future performance of any specific investment or investment strategy, or any non-investment related or planning services, discussion or content, will be profitable, be suitable for your portfolio or individual situation, or prove successful. The table above presents the estimated monthly interest and dividend income and return of principal that your current holdings may generate over the next rolling 12 months. The cash flows displayed are estimates provided for informational purposes only and there is no guarantee that you will actually receive any of the amounts displayed. These estimates should not be relied upon for making investment, trading or tax decisions. The estimates for fixed rate domestic bond and CD income are calculated using the security's coupon rate. The estimates for domestic common stock and mutual fund income are calculated using an indicated annual dividend (IAD). The IAD is an estimate of a security's dividend payments for the next 12 months calculated based on prior and/or declared dividends for that security. IADs are sourced from third party vendors believed to be reliable, but no assurance can be made as to accuracy. There are circumstances in which these estimates will not be presented for a specific security you hold.

Please refer to the Help/Glossary section of Fidelity.com for additional information on these calculations.

Bond & CD Income includes interest payments for fixed rate bonds and Certificates of Deposit (CDs).

Bond & CD Principal includes maturing principal payments for CDs and the following bonds: fixed rate, floating rate, variable rate, discount, and zero coupon.

Stock Income includes estimated dividend payments for common stock, ADR's, and REITs.

Mutual Fund Income includes estimated dividend payments for Fidelity and non-Fidelity mutual funds.

The table above does not include cash flow from the following securities: preferred stocks, international stocks, exchange trade products (ETF's & ETN's), UITs, variable rate bonds, and international bonds, but may be included in future enhancements.

Your reported sales transactions include one or more sales of shares you acquired through an equity compensation plan that are "disqualified dispositions" for U.S. federal income tax purposes, which may give rise to ordinary income instead of or in addition to capital gain or loss. This sale may cause you to cease to qualify for favorable tax treatment of your grant. Consult your grant agreement and your tax advisor for the rules applicable to your grant.

		Accrued Interest (AI)	\$582.57				
		Total Including Accrued Interest (AI)	\$136,053.75				

A Investments such as direct participation program securities (e.g., partnerships, limited liability companies, and real estate investment trusts which are not listed on any exchange), commodity pools, private equity, private debt and hedge funds are generally illiquid investments and their current values may be different from the purchase price. Unless otherwise indicated, the values shown in this statement for such investments have been provided by the management, administrator or sponsor of each program or a third-party vendor without independent verification by Fidelity Brokerage Services (FBS) and represent their estimate of the value of the investor's participation in the program, as of a date no greater than 18 months from the date of this statement. Therefore, the estimated values shown herein may not necessarily reflect actual market values or be realized upon liquidation. If an estimated value is not provided, valuation information is not available.

AI **Accrued Interest** Presented for domestic fixed income securities and represents interest accumulated since the last coupon date, but not yet paid by the issuer or received by NFS. AI is calculated for the following securities: fixed rate bonds and Certificates of Deposit (CDs). There is no guarantee that AI will be paid by the issuer. AI for treasury and GNMA securities, however, is backed by the full faith and credit of the United States Government. AI totals represent accruals for only those securities with listed AI in the Holdings section of this statement. Please refer to the Help/Glossary section of Fidelity.com for additional information.

B See Cost Basis Information and Endnotes for important information about the adjusted cost basis information provided.

C Cost basis information (or proceeds from short sales) has been provided by you or a third party (such as a transferring broker) and has not been adjusted except as otherwise indicated.

EAI **Estimated Annual Income (EAI) & Estimated Yield (EY)** EAI is an estimate of annual income & EY for a specific security position over the next rolling 12 months. EY is calculated by dividing the current EAI for a security position by its statement closing date market value. EY reflects only the income generated by an investment; it does not reflect changes in its price, which may fluctuate. For certain types of securities, EAI and EY could include the return of principal or capital gains which would render them overstated. EAI and EY are estimates provided for informational purposes only and should not be relied on for making investment, trading, or tax decisions. There is no guarantee that your investments will actually generate the EAI or EY presented. Actual income and yield might be lower or higher. EAI and EY should not be confused with a security's 30-day Yield or 7-day Yield, if provided, as such yield quotations reflect the actual historical performance of a security. **For additional information, including calculation details, refer to the "Additional Information and Endnotes" section at the end of your statement.**

M Position held in margin account. All other positions held in cash account.
t Third party provided.

July	—	—	—	—	—
Total	\$2,612	—	\$3,069	—	\$5,682

The table above presents the estimated monthly interest and dividend income and return of principal that your current holdings may generate over the next rolling 12 months. The cash flow displayed are estimates provided for informational purposes only and there is no guarantee that you will actually receive any of the amounts displayed. These estimates should not be relied upon for making investment, trading or tax decisions. The estimates for fixed rate domestic bond and CD income are calculated using the security's coupon rate. The estimates for domestic common stock and mutual fund income are calculated using an indicated annual dividend (IAD). The IAD is an estimate of a security's dividend payments for the next 12 months calculated based on prior and/or declared dividends for that security. IADs are sourced from third party vendors believed to be reliable, but no assurance can be made as to accuracy. There are circumstances in which these estimates will not be presented for a specific security you hold.

Please refer to the Help/Glossary section of Fidelity.com for additional information on these calculations.

Bond & CD Income includes interest payments for fixed rate bonds and Certificate of Deposit (CDs).

Bond & CD Principal includes maturing principal payments for CDs and the following bonds: fixed rate, floating rate, variable rate, discount, and zero coupon. **Stock Income** includes estimated dividend payments for common stock, ADR's, and REITs.

Mutual Fund Income includes estimated dividend payments for Fidelity and non-Fidelity mutual funds.

The table above does not include cash flow from the following securities: preferred stocks, international stocks, exchange trade products (ETF's & ETN's), UITs, variable rate bonds, and international bonds, but may be included in future enhancements.

HOLDINGS (CONTINUED)

*AI Accrued Interest Presented for domestic fixed income securities and represents interest accumulated since the last coupon date, but not yet paid by the issuer or received by NFS. AI is calculated for the following securities: fixed rate bonds and Certificates of Deposit (CDs). **There is no guarantee that AI will be paid by the issuer.** AI for treasury and GNMA securities, however, is backed by the full faith and credit of the United States Government. AI totals represent accruals for only those securities with listed AI in the Holdings section of this statement. Please refer to the Help/Glossary section of Fidelity.com for additional information.*

***EAI & EY Estimated Annual Income (EAI) & Estimated Yield (EY)** EAI is an estimate of annual income for a specific security position over the next rolling 12 months. EY is calculated by dividing the current EAI for a security position by its statement closing date market value. EY reflects only the income generated by an investment; it does not reflect changes in its price, which may fluctuate. For certain types of securities, EAI and EY could include the return of principal or capital gains which would render them overstated. EAI and EY are estimates provided for informational purposes only and should not be relied on for making investment, trading, or tax decisions. There is no guarantee that your investments will actually generate the EAI or EY presented. Actual income and yield might be lower or higher. EAI and EY should not be confused with a security's 30-day Yield or 7-day Yield, if provided, as such yield quotations reflect the actual historical performance of a security. For additional information, including calculation details, refer to the "Additional Information and Endnotes" section at the end of your statement.*

Your reported sales transactions include one or more sales of shares you acquired through an equity compensation plan that are "disqualified dispositions" for U.S. federal income tax purposes, which may give rise to ordinary income instead of or in addition to capital gain or loss. This sale may cause you to cease to qualify for favorable tax treatment of your grant. Consult your grant agreement and your tax advisor for the rules applicable to your grant.

The table above presents the estimated monthly interest and dividend income and return of principal that your current holdings may generate over the next rolling 12 months. The cash flow displayed are estimates provided for informational purposes only and there is no guarantee that you will actually receive any of the amounts displayed. These estimates should not be relied upon for making investment, trading or tax decisions. The estimates for fixed rate domestic bond and CD income are calculated using the security's coupon rate. The estimates for domestic common stock and mutual fund income are calculated using an indicated annual dividend (IAD). The IAD is an estimate of a security's dividend payments for the next 12 months calculated based on prior and/or declared dividends for that security. IADs are sourced from third party vendors believed to be reliable, but no assurance can be made as to accuracy. There are circumstances in which these estimates will not be presented for a specific security you hold.

Please refer to the Help/Glossary section of Fidelity.com for additional information on these calculations.

Bond & CD Income includes interest payments for fixed rate bonds and Certificate of Deposit (CDs).

Bond & CD Principal includes maturing principal payments for CDs and the following bonds: fixed rate, floating rate, variable rate, discount, and zero coupon. **Stock Income** includes estimated dividend payments for common stock, ADR's, and REITs.

Mutual Fund Income includes estimated dividend payments for Fidelity and non-Fidelity mutual funds.

The table above does not include cash flow from the following securities: preferred stocks, international stocks, exchange trade products (ETF's & ETN's), UITs, variable rate bonds, and international bonds, but may be included in future enhancements.

EAI & EY **Estimated Annual Income (EAI) & Estimated Yield (EY)** EAI is an estimate of annual income for a specific security position over the next rolling 12 months. EY is calculated by dividing the current EAI for a security position by its statement closing date market value. EY reflects only the income generated by an investment; it does not reflect changes in its price, which may fluctuate. For certain types of securities, EAI and EY could include the return of principal or capital gains which would render them overstated. EAI and EY are estimates provided for informational purposes only and should not be relied on for making investment, trading, or tax decisions. There is no guarantee that your investments will actually generate the EAI or EY presented. Actual income and yield might be lower or higher. EAI and EY should not be confused with a security's 30-day Yield or 7-day Yield, if provided, as such yield quotations reflect the actual historical performance of a security. **For additional information, including calculation details, refer to the "Additional Information and Endnotes" section at the end of your statement.**

CHANGES TO DIVIDEND REINVESTMENT AND CAPITAL GAINS REPORTING

Please note that Fidelity is changing the way it reports on reinvested dividends and capital gains in all types of retirement accounts, including IRA, Roth, Rollover, SEP, and other tax-deferred accounts. Fidelity is now adding the cost of the reinvested shares to the position level cost basis amount reported on Fidelity.com and on monthly statements.

This change is intended to make retirement account information more comprehensive and more consistent with data reported in taxable brokerage accounts. During this upgrade you may see changes to cost basis for positions held in retirement accounts without any corresponding account activity. It is important to note that this is just a change in the way information is presented. Because these are retirement accounts, this change does not impact the tax status, taxation, or actual results of your investments. 605867.1.04

DISCLOSURES

Fidelity is required by the Securities Exchange Act of 1934 to provide certain financial information from the Statement of Financial Condition of National Financial Services LLC (NFS). At December 31, 2011, NFS, an affiliate of Fidelity Brokerage Services LLC, had net capital of \$2,065 million, which was 12.98% of aggregate debit items and exceeded its minimum requirement by \$1,747 million. To acquire the Statement of Financial Condition of National Financial Services LLC (NFS), log on to Fidelity.com. If you wish to obtain a copy of this document at no cost, or have any questions regarding its contents, please call Fidelity at 800-544-6666. 457389.9.19 Effective April 1, 2012, the Activity Assessment Fee ("assessment") that is applied to sell orders of certain securities that occur through a national securities exchange or association increased from \$0.018 to \$0.0224 per \$ 1,000 of principal. This assessment is displayed on your transaction confirmation. The collected fees are subsequently remitted to the respective securities exchanges and associations. 608523.3.26

COST BASIS INFORMATION & ENDNOTES

Cost basis and gain/loss information is provided as a service to our customer, and is based on standards for filing US Federal Tax Returns as determined by Fidelity. This information is not intended to address tax law or reporting requirements applicable in your country of tax residence.

Fidelity-provided estimated cost basis, gain/loss and holding period information may not reflect all adjustments necessary for tax reporting purposes. Taxpayers should verify such information against their own records when calculating reportable gain or loss resulting from a sale, redemption or exchange. Amortization, accretion and similar adjustments to cost basis are provided for many fixed income securities (and some bond-like equities), however they are not provided for certain fixed income securities, such as short-term instruments, Unit Investment Trusts, foreign fixed income securities, or those that are subject to early prepayment of principal (pay downs).

B Adjusted cost basis information is shown where this indicator is displayed. The adjusted cost basis reflect any cumulative original issue discount, premium, or acquisition premium, and it assumes such amounts were amortized by the taxpayer over the life of the security from acquisition date through disposition date. For securities still held, maturity date was used instead of disposition date. Premium amortization was calculated using the yield-to-maturity method. Acquisition premium was calculated using the ratable accrual method. If applicable, adjusted cost basis reflect market discount accretion which was calculated using the straight-line method and was recognized at disposition date. Any gain/loss or wash sale disallowed loss displayed for this transaction or position was based on adjusted cost basis. The adjusted cost basis may not reflect all adjustments necessary for tax reporting purposes and may also not apply if you are using an alternative amortization calculation method. Consult your tax advisor and/or refer to IRS Publication 550, Investment Income and Expenses, for additional information.

If total cost basis information is provided for multiple tax lots, that total cost basis information (and any associated gain/loss displayed) may have been calculated using a combination of adjusted cost basis information (as described above) and non-adjusted cost basis information. Total cost basis information (and any associated gain/loss displayed) is calculated using adjusted cost basis for lots for which adjusted cost basis is provided and non-adjusted cost basis for lots for which adjusted cost basis is not provided or not applicable.

EAI for fixed rate domestic bonds and CDs is calculated using the coupon rate. For all other securities, EAI is calculated using an indicated annual dividend (IAD). The IAD is an estimate of a security's dividend payments for the next 12 months calculated based on prior and/or declared dividends for that security. IADs are sourced from third party vendors believed to be reliable, but no assurance can be made as to accuracy. This third party data may not be promptly updated to reflect various corporate actions (for example, when an issuer has missed a scheduled dividend payment, announced changes to a payment schedule, or declared a stock split) and, as a result, the EAI and EY may be over or understated. Interest and dividend rates are subject to change at any time, and may be affected by current and future economic, political and business conditions. Please refer to the Help/Glossary on Fidelity.com for additional information regarding these calculations.

EAI and EY are not provided for: preferred stocks, exchange traded products (ETFs & ETNs), UITs, variable rate bonds, and international stocks & bonds, but may be included in the future. EAI is not displayed for amounts less than \$10.

Ratings information from Standard & Poors ("S&P") may not be reproduced. S&P credit ratings are statements of opinion and are not statements of fact or recommendations to purchase, hold, or sell securities, nor do they address the suitability of securities for investment purposes, and should not be relied on as investment advice. S&P does not guarantee the accuracy, completeness, timeliness or availability of any information, including ratings, and is not responsible for errors or omissions (negligent or otherwise). S&P gives no express or implied warranties, including but not limited to any warranties of merchantability or fitness for a particular purpose or use. S&P shall not be liable for any direct, indirect, incidental, exemplary, compensatory, punitive, special or consequential damages, costs, expenses, legal fees, or losses (including lost income or profit and opportunity costs) in connection with any use of ratings.

COST BASIS INFORMATION & ENDNOTES (CONTINUED)

About Your RMD Calculations:

- Your annual RMD will be calculated on or soon after January 1 each year to comply with IRS regulations.
- Your RMD amount is calculated using your prior year-end balance divided by your current year life expectancy factor using your date of birth and the beneficiary information on file as of December 31st of the prior year. Beneficiary changes made in the current year are not factored in the calculation.
- The life expectancy factor used to determine your distribution amounts in subsequent years will be recalculated each year.
- Your birth date used for these calculations is: On File. Please visit [Fidelity.com](https://www.fidelity.com) and go to your profile to view the birth date on file
- If your spouse is the sole beneficiary for your account and is more than 10 years younger than you, you qualify to use the Spousal Exception Joint Life Expectancy table for your RMD calculation. Please contact Fidelity if there is a change in your beneficiary information. Fidelity will not automatically update your automatic withdrawal plan until the year following the year in which you change your beneficiary designation. As a result, you should consult your tax advisor as it may be necessary for you to take additional withdrawals to meet your RMD in the year of the beneficiary change in order to avoid a possible excise tax.

The Year-to-Date distributions for this statement include any distributions taken after January 1st of the current year up until midnight of the statement end date. Distribution amounts include single distributions and distributions taken through any automatic withdrawal plan such as the Personal Withdrawal Service (PWS) if one exists for this account.

IRS & Tax Considerations:

- It is your responsibility to ensure that any requested distributions satisfy IRS requirements. Fidelity cannot accept responsibility if we are unable to make any scheduled distribution due to an insufficient balance in a named mutual fund position.
- Federal and state withholding will apply to any and each distribution.
- Federal and state tax withholding will remain in effect on periodic distributions taken under an automatic withdrawal plan for your Fidelity accounts until revoked by you. You may revoke an election for future distributions at any time online, by phone or written request. A written withholding notice can be requested by calling Fidelity at 800-Fidelity.
- Regardless of your withholding election, you are responsible for the full payment of federal income taxes, any state or local taxes and any penalties that may apply. You may be responsible for estimated tax payments and could incur penalties if your estimated tax payments are not sufficient.

If you have a question about your account or require service, please call your investment advisor/authorized agent.

Lost or Stolen Cards - For Visa® Check (Debit/ATM) Cards, call 800-323-5353. For details refer to your Fidelity Check Card Agreement and Disclosure Statement.

Additional Investments with Fidelity - Please make non-retirement checks payable to Fidelity Brokerage Services LLC (FBS), and for retirement accounts make checks payable to Fidelity Management Trust Company. Please include your account number on the check. Do not include trading instructions with check deposits. We mail statements at least quarterly for any account with a balance. Please review your statement and report any inaccuracies or discrepancies immediately. Questions regarding your brokerage account or the activity therein should be directed to FBS at 800-544-6666, and National Financial Services LLC ("NFS"), who carries your brokerage accounts, at 866-408-1138. Any oral communications regarding inaccuracies or discrepancies should be reconfirmed in writing to protect your rights, including those under the Securities Investor Protection Act ("SIPA"). Please advise us promptly of any material changes in your investment objectives or financial situation related to your brokerage account(s). If you request a reprint of your statement, the disclosure information may not be the same as the original.

Terms and Conditions of the Statement - Fidelity does not endorse or recommend any particular investment, trading activity, or investment advisor/authorized agent. Fidelity has no responsibility for and will not review, monitor or supervise suitability of trading by any investment advisor/authorized agent. Fidelity has not verified the content of any logo or artwork on this statement identifying a firm other than Fidelity. The firm represented by such a logo or artwork is not an agent of or affiliated with Fidelity.

Changes in Portfolio Value and Account Summary - Shows activity in your portfolio and in each of your accounts for the statement period. To confirm that an authorized, direct deposit was made to your Fidelity Account, call Fidelity at 1-800-544-5555.

Value by Account - Shows the value of your account(s), for the current and previous statement periods.

Income Summary - Shows income by tax status for the statement and year-to-date periods. Except for interest earned on, or distributed by, tax-exempt securities, Fidelity reports dividends and capital gains held in taxable accounts as taxable income. A portion of this income may be subject to state and local taxes and the federal alternative minimum tax. Fidelity reports earnings on investments in Traditional IRAs, Rollover IRAs, SEP-IRAs and Keoghs as tax-deferred income. Earnings on Roth-IRAs are reported as tax-exempt income, since distributions may be tax-exempt after meeting the five-year aging requirement and certain other conditions.

Cost Basis, Gain/Loss, and Holding Period Information - Cost basis is the original amount paid to purchase a security, including the amount of reinvested dividends and capital gains. Generally, we adjust cost basis for events such as returns of capital (including dividend reclassifications) and disallowed losses on wash sales on identical securities within the same account. NFS is required to report certain cost basis and holding period information to the IRS on Form 1099-B. However, cost basis, realized or unrealized gain and loss, and holding period information may not reflect all adjustments required for your tax reporting purposes. NFS and Fidelity specifically disclaim any liability arising out of a customer's use of, or any tax position taken in reliance upon, such information. Unless otherwise specified, NFS determines cost basis at the time of sale using its default methods of average cost for open-end mutual funds (except ETFs) and first-in, first-out (FIFO) for all other securities (including ETFs and shares held in dividend reinvestment plans). Customers should consult their tax advisors for further information.

Cost - Fidelity provides purchase cost information for securities held in retirement accounts. Such information may be adjusted for certain transactions and does not reflect reinvestments of dividends or capital gains. Fidelity reports transaction profit or loss information when securities are sold within a retirement account. Transaction profit or loss is calculated by subtracting purchase cost from sales proceeds using the FIFO method if shares were purchased at different times or prices.

Contributions/Distributions - Summarizes Traditional IRA and Roth IRA contributions, and taxable and non-taxable retirement distributions for these statement and year-to-date periods.

Total Value - The reported market value of an investment at the beginning or end of a statement period.

Unrealized gain/loss - For long positions, ending market value minus cost basis in non-retirement accounts and ending market value minus cost in retirement accounts. For short positions, proceeds minus ending market value. Unrealized gain/loss is calculated for pending sales because they are still in holdings. Unrealized gain/loss is not calculated for pending purchases because they are not in holdings.

Holding Type Percentage - Percentages by holding type only include long positions. Holding type percentages are rounded to the nearest percent and summed. If the sum is less than 100%, the difference between 100% and the sum is added to the holding type with the largest percentage.

Change in Investment Value - The appreciation or depreciation of your holdings due to price changes, plus any distribution and income earned during the statement period, less any transaction costs, sales charges, or fees.

Account Protection - Securities in accounts carried by NFS, a Fidelity Investments company, are protected in accordance with the Securities Investor Protection Corporation (SIPC) up to \$500,000 (including cash claims limited to \$250,000). For more information, including the SIPC brochure, please see www.sipc.org or call 1-202-371-8300. NFS has arranged for additional protection for cash and covered securities to supplement its SIPC coverage. Neither coverage protects against a decline in the market value of securities. Mutual funds and/or other securities are not backed or guaranteed by any bank, nor are they insured by the FDIC and involve investment risk including possible loss of principal. Bank deposits are not securities and are not covered by SIPC. Funds used to purchase or sweep to a bank deposit are SIPC protected until deposited to a Program Bank at which time funds may be eligible for FDIC insurance.

Information About Mutual Funds and Their Performance - Before investing consider the fund's or insurance product's investment objectives, risks, charges and expenses. Contact Fidelity or visit Fidelity.com for a prospectus containing this information. Read it carefully before investing.

Performance data shown represents past performance, and is no guarantee of future results.

Investment return and principal value will fluctuate, so you may have a loss or a gain when shares are sold. Current performance may be higher or lower than that quoted. An investment in a money market fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Although a money market fund seeks to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in the fund. Visit Fidelity.com/performance for most recent month-end performance. Each fund reserves the right to terminate or modify its exchange privilege. Foreign investment, especially those in emerging markets, may involve greater risks than U.S. investments. In connection with access to, purchase of, and/or maintenance of positions in mutual fund and other investment products ("funds"), FBS or NFS may receive the sales load and 12b-1 fees described in the prospectus as well as additional compensation, paid by the funds, their investment advisors or affiliates. Additional information about the source(s) and amount(s) of compensation as well as other remuneration received by FBS or NFS will be furnished to you upon written request. At the time you purchase shares of funds those shares will be assigned either a load, transaction fee (TF) or no transaction fee (NTF) status. When you subsequently sell those shares, any fees applicable to your transaction will be assessed based on the status assigned to the shares at the time of purchase.

Customer Free Credit Balance - You are entitled to your free credit balance in your brokerage account, subject to open commitments in your cash accounts. Free credit balances are not segregated and may be used in NFS's business in accordance with federal securities law. If your free credit balance is automatically transferred to a money market fund or to an FDIC insured bank account you use as your brokerage account's core position, you can liquidate the shares of the money market fund or bank balances at any time and have the proceeds remitted to you or held in your brokerage account subject to the terms and conditions of your account agreement.

Assets Separate From Your Brokerage Account - Only securities in the margin portion of your brokerage accounts contribute to margin and maintenance requirements. Other assets, which may be reported on your statement, including insurance products that are distributed by FBS and Fidelity Insurance Agency, Inc. and mutual fund assets outside your brokerage account (that may be reported on your statement) are not carried by NFS, are not covered by SIPC and do not count toward your margin and maintenance requirements.

Short Account Balances - Securities sold short are held in a segregated short account. These securities are marked-to-market for margin purposes and increase or decrease from the short sale price is transferred weekly to your margin account. Your short account balance is shown as of the last weekly mark-to-market, not statement end date.

Information About Your Option Transactions - Each transaction confirmation contains full information about commissions and other charges. If you require further information, contact Fidelity at 800-800-6890. Assignments of American and European-style options are allocated among customer short positions pursuant to a random allocation procedure, a description of which is available upon request. Short positions in American-style options are liable for assignment at any time. The writer of a European-style option is subject to exercise and assignment only during the exercise period.

Equity Dividend Reinvestment - Shares credited to your account from transactions by FBS acting as agent for your account, or the Depository Trust Company (DTC).

Price Information/Total Market Value - The Total Market Value has been calculated to 9 decimal places; however, the individual unit price is displayed in 5 decimal places. The Total Market Value represents prices obtained from various sources, may be impacted by the frequency with which such prices are reported and such prices are not guaranteed. Prices received from pricing vendors are generally based on current market quotes, but when such quotes are not available pricing vendors use a variety of techniques to estimate value. These estimates, particularly for fixed income securities, may be based on certain minimum principal amounts (e.g. \$1 million) and may not reflect all factors that affect the value of the security, including liquidity risk. The prices provided are not firm bids or offers. Certain securities may reflect N/A or unavailable where the price for such security is generally not available from a pricing source. The Market Value of a security, including those priced at par value, may differ from its purchase price and may not closely reflect the value at which the security may be sold or purchased based on various market factors. The sale or redemption of any fixed income security prior to maturity may result in a loss. Prices for Certificates of Deposit (CDs) are generally estimates and are not based on actual market prices. The secondary market for CDs is generally illiquid. You should always request a current valuation for your securities prior to making a financial decision or placing an order.

("A") Alternative Investments - Investments such as direct participation program securities (e.g., partnerships, limited liability companies, and real estate investment trusts which are not listed on any exchange), commodity pools, private equity, private debt and hedge funds are generally illiquid investments and their current values may differ from purchase price. Unless otherwise indicated, the values shown in this statement for such investments have been provided by the management, administrator or sponsor of each program or a third-party vendor without independent verification by Fidelity Brokerage Services (FBS) and represent their estimate of the value of the investor's participation in the program, as of a date no greater than 18 months from the date of this statement. Thus, the estimated values shown herein may not necessarily reflect actual market values or be realized upon liquidation. If an estimated value is not provided, valuation information is not available. In executing orders on the Floor, the Floor broker may permit the specialist to trade on parity with the order for some or all of the executions associated with filling that order, where such permission would not be inconsistent with the brokers best execution obligations.

Fidelity Investments - Fidelity Distributors Corporation (FDC) is the distributor for Fidelity Funds with marketing and shareholder services provided by FBS or NFS. Brokerage services are provided by FBS, which clears all transactions through its affiliate NFS. NFS carries all brokerage accounts. FBS and NFS are members of the NYSE and SIPC. FBS, NFS and FDC are all direct or indirect subsidiaries of FMR LLC. Upon written request, Fidelity will mail a NFS financial statement, which is also available at its office. Fidelity Investments (with pyramid logo) is a trademark of FMR LLC. Insurance products are distributed by FBS, Fidelity Insurance Agency, Inc., and Fidelity Investments Insurance Agency of Texas, Inc.
